

Capability Statement

Core Competencies

Low Voltage and Telecommunications

Coastal Contracting LLC helps clients by supplying products and services. We install network & fiber optic cabling in offices, warehouses, schools, retail and other locations. We integrate voice, data and Wi-Fi into the building. We build MDF and IDF rooms to include 2 & 4 post racks, ladder racks, wall mount racks etc.

Coastal Contracting LLC can supply your facility with the technology you need and the products that are designed to help your team connect to customers and clients.
